

RAFET KAAAN ALHAN

Industrial Engineering Student | Process Improvement & Data Analysis
İzmir, Türkiye | rafetkaanalhan@gmail.com

SUMMARY

Final-year Industrial Engineering student at Yaşar University with internship experience in manufacturing quality, process improvement, data analysis, IT systems support, and market research. Designed a rule-based Digital Poka-Yoke error-proofing system in Python for a heat exchanger production line. Proficient in Python, SQL, AutoCAD, and Adobe Photoshop.

EXPERIENCE

Industrial Engineering Intern, Production Department | Termokar Isıtma ve Soğutma Eşanjörleri San. ve Tic. A.Ş. | Jul 2026 - Aug 2026

- Analyzed production workflows and quality control procedures for heat exchangers and air-cooled condensers manufactured under ISO 9001 standards.
- Investigated recurring quality non-conformities caused by omitted process steps (brazing, solvent cleaning, nitrogen purging) through root-cause analysis.
- Designed and implemented a rule-based Digital Poka-Yoke error-proofing system in Python (OOP) to enforce correct operation sequencing and block shipment of incomplete orders.

Technical and Creative Projects Intern | Social Office | Sep 2025 - Oct 2025

- Used AutoCAD, Excel, Python, and Adobe Photoshop to support technical and creative project development.
- Applied analytical thinking and problem-solving to develop and present project solutions.
- Built hands-on skills in data analysis, design software, and programming tools through project work.

Information Processing Department Intern | İzmir Ticaret Borsası | Jun 2025 - Aug 2025

- Supported internal software integration processes in the IT department, performing data entry, updates, and reporting on the Alpata and Vezir systems.
- Participated in system integration work, ensuring accurate data flow between systems.
- Managed daily record-keeping, data control, and report generation; supported the technical team in process tracking, system updates, and error reporting.

Marketing Intern | Locomar Lokomotif | Oct 2024 - May 2025

- Conducted market research to provide data-driven insights for startup investment opportunities.
- Supported meeting planning, reporting, and presentation development; prepared research presentations and took part in pre-meeting interviews.

EDUCATION

B.Sc. Industrial Engineering (Semi Scholarship) | Yaşar University, İzmir | 2022 - 2027

High School | Gaziemir Uğur High School | 2018 - 2022

SKILLS

Technical: Python (OOP), SQL Database, AutoCAD, MS Office (Excel), Adobe Photoshop

Professional: Data Analysis, Process Improvement, Root-Cause Analysis, Poka-Yoke, Quality Control, Market Research, Digital Marketing, Finance

LANGUAGES

Turkish: Native | English: B2

ACTIVITIES AND AWARDS

- Active member, Industrial Engineers Society (2023-2024)
- Active member, BlockChain Club, Yaşar University; Yaşar University basketball team player
- Basketball: Turkey 3rd Place (2015-2016); Bornova Municipality Tournament 2nd Place (2016-2017)
